

SHOOT TO TOUCH THE STICKS

Activity Typology: Cooperative Challenge (*Collective Marker*)

Material: One ball per participant

Description of the activity:

Everyone in the group shares the same goal. For two minutes (or time agreed), all participants aim and shoot at the goal posts and crossbar. **At all times the minimum safety distance between all participants must be maintained.** The value of the shot is determined depending on the distance and whether the ball touches the side posts or crossbar. At the end of time, the score earned among all participants is added to obtain a group result.

After providing the participants with a few minutes to develop or rethink a strategy, the whole group restarts with the same amount of time, attempting to improve the score achieved during the first attempt.

Variants:

V1: Let the participants choose what they would like to shoot with, either with their feet or hands.

Questions for reflection:

- Did you like the challenge? Did you think it was fun?
- What was it like to aim at the goal posts? Did you find it easy or difficult? Were you motivated to shoot at the goal posts or the goal (like to score a goal)?
- What value do you think has been most important in this challenge?
- In what other spaces do you put this value into practice? At home, at school, on the street, on public transport...?
- In what other situations do you put this value into practice
